

**REMARKS**

Applicants have amended claim 21 in this Supplemental Rule § 1.312 Amendment. The previous Rule § 1.312 Amendment filed December 1, 2009 contained typographical errors in that the nonvolatile memory, update data acquisition unit, and processing unit were shown indented in the claim as part of the recording medium. In fact, those components should not have been indented as they are components of the map data processing apparatus.

Applicants respectfully request that this Supplement Amendment be entered as it properly addresses the amendment made by the Examiner in the Notice of Allowance.

If there are any questions regarding this amendment or the application in general, a telephone call to the undersigned would be appreciated since this should expedite the prosecution of the application for all concerned.
